How these puzzles work

Word search

Find every word in the bank. Words may run in any of 8 directions. Tick each word when you find it. Then solve the bonus riddle using the tiles with a black corner — those letters are not part of any bank word.

Crossword

Read each clue and fill the numbered boxes. Across goes left to right; Down goes top to bottom. The number in brackets is the letter count. Use the hint words if you need a nudge, and cross them out as you go.

Levels

- **Explorer** — familiar words, clearer clues
- **Detective** — denser topics and vocabulary
- **Master** — richer words, still kid-solvable
