# Quick-Recall Games

Your flashcards are all you need · three ways to play, each under 5 minutes

## 1. Quick 10

Goal: Remember the answer, don't count it.

1. Pick 10 cards from your child's current level.
2. Show the question. Child answers aloud, then open to check.
3. Score = how many were right AND remembered, out of 10.
4. Counted, guessed or missed → tricky pile. Replay those once.

**SCORE:** 9–10: Strong result. Confirm in another session. 7–8: Nearly there. Practise missed facts. Under 7: Practise again and retry tomorrow.

## 2. Find My Match

Goal: Spot that 3 × 4 and 4 × 3 have the same answer.

1. Pick a card, for example 3 × 4 from Table 3.
2. Find its reverse (4 × 3) in Table 4. Say the answer first.
3. Open both cards — same answer? 1 point per correct pair.
4. Collect 5 pairs to win. Bonus: explain why they match.

**WHY IT WORKS:** 3 × 4 and 4 × 3 are the same dots turned sideways — half as many facts to learn.

SAMPLE · PREVIEW

## 3. Beat Your Best

Goal: Know one more card than last time.

1. Choose 10 cards and play Quick 10. Write the score.
2. Practise only the missed cards for a few minutes.
3. Later (or next day), try the same 10 cards again.
4. Compare scores. Beat your best by one card.

**SCORE:** Celebrate improvement, not speed. Do three attempts, then pick 10 new cards.

# 2 Match the Fact (1 of 3)

Fact tiles · Match it, then say how you know

## How to play

Cut out all 24 tiles from both pages. The next page has blank tiles to make your own. Lay the product tiles face up. SOLO: pick a fact tile, say the answer first, then place it on the matching product. Check with the flashcard. WITH A PARENT: take turns. Right = keep both tiles. Wrong = back in the pile.

# 2 Match the Fact (2 of 3)

Product tiles · Scoring and winning

## Scoring and winning

1 point for each correct match. Score out of 12. WITH A PARENT: most points when all tiles are gone wins. SOLO: 11–12 Gold · 9–10 Silver · under 9 means replay the missed facts tomorrow.
